**A sophisticated feel** with a young spirit

## Vision + Mission

“Every design has a story, what matters is how it makes you feel.”

Modern Furniture, in addition to being a product obtained with technology, also expresses the blending of emotions. All details are processed with the utmost care, and the feelings should not be lost when it comes from design to production. The important thing is not to produce too much, but to ensure that there is no difference in quality between one and a thousand pieces produced. We built our production facility to these standards.

We are building the future with our 25,000 m2 integrated production facility with a modular and wooden furniture production capacity of over 500,000 m2 per year and half a century of industry experience.

We know what you want and we continue to innovate and produce for this.

Designing, drawing, painting and many other processes are the reflection of love for us. You can see how much we love our job in every product process we produce.

The combination of wooden details and modular production technology forms the basis of our philosophy in the successful R&D studies carried out by our product design center integrated with industrial production, 365 days a year.

The reason why our products serve you for many years is due to the importance we attach to durability. When in-product usage areas are combined with design and functionality, we see the indescribable happiness of living with them.

Durability and functionality are our priority and your lifestyle.

What is important to us in the products we produce is the perceptible quality, the reflection of this feeling to the customer makes us preferred and our quality is registered. Besides talking about quality, we know the importance of registration.

We export 70% of our production capacity to 60 countries.

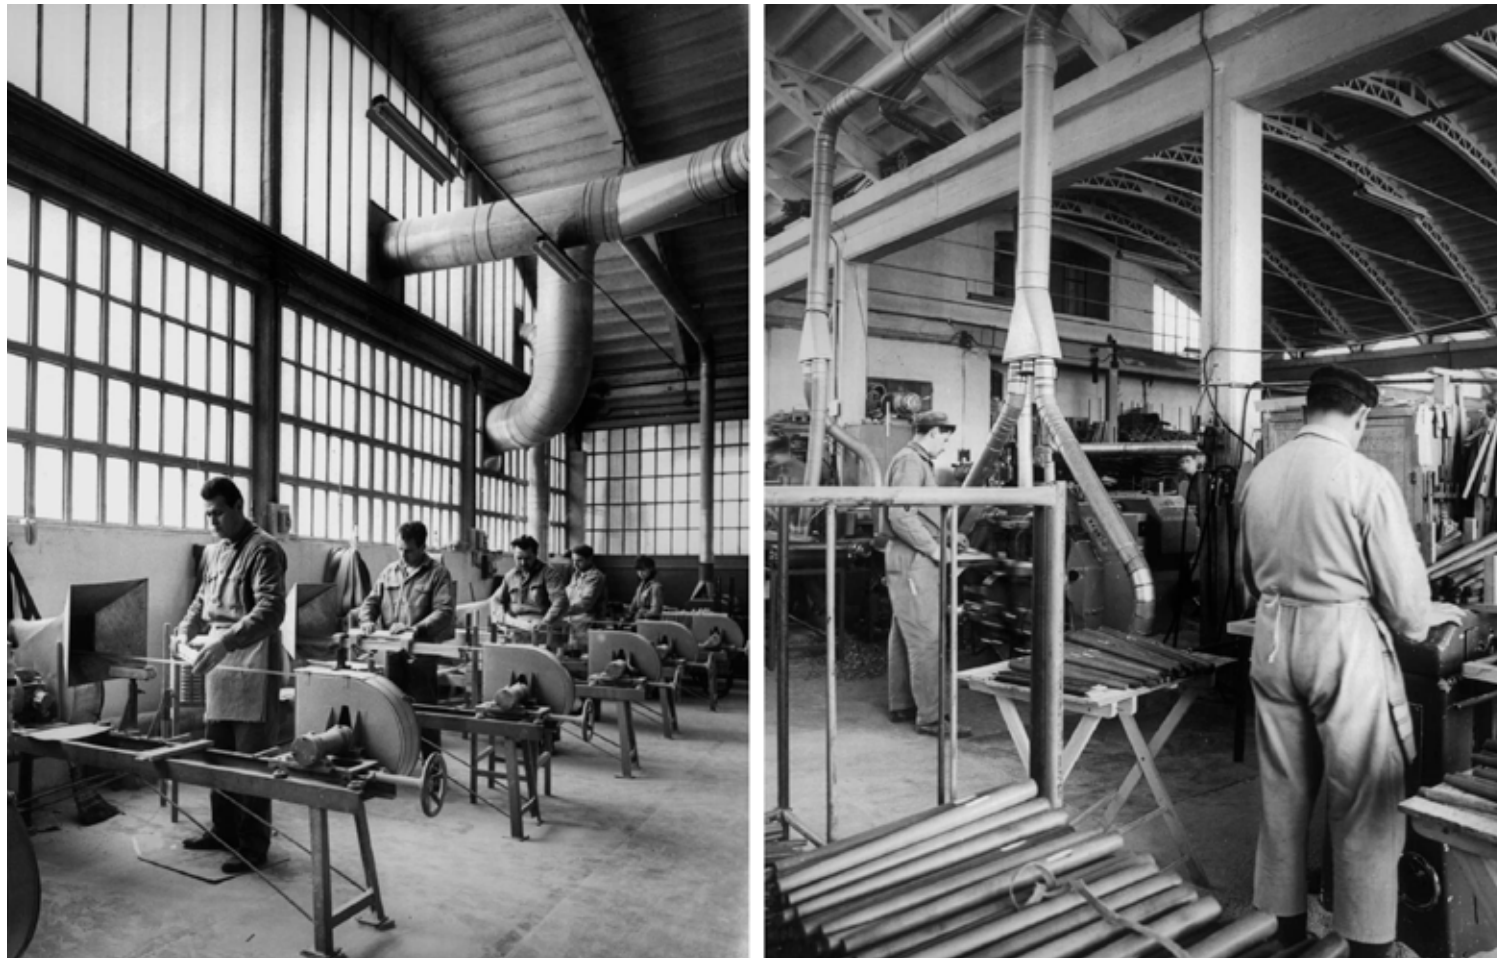

What is important for us is not only to be preferred in our own country, but also to win the love of the people of the whole world. We thank all the people of the world for making us experience this love.

The natural world progresses on its immutable path,  
while design challenges the flow and transformation  
of time, merging its fundamental shapes and materials  
into a timeless harmony.

The sofa has evolved from a simple seating option to a pivotal element in our daily lives, serving functions ranging from work to leisure and from public to private moments. It represents a declaration of our identity and aspirations. More than just furniture, it's a designed space with intent and purpose, fostering connections and transforming our everyday experiences into something greater.

Create a better quality ambiance for your home with details that make your life easier. Modern lines are clearly visible in this set, and it fascinates people with its elegant and noble appearance.

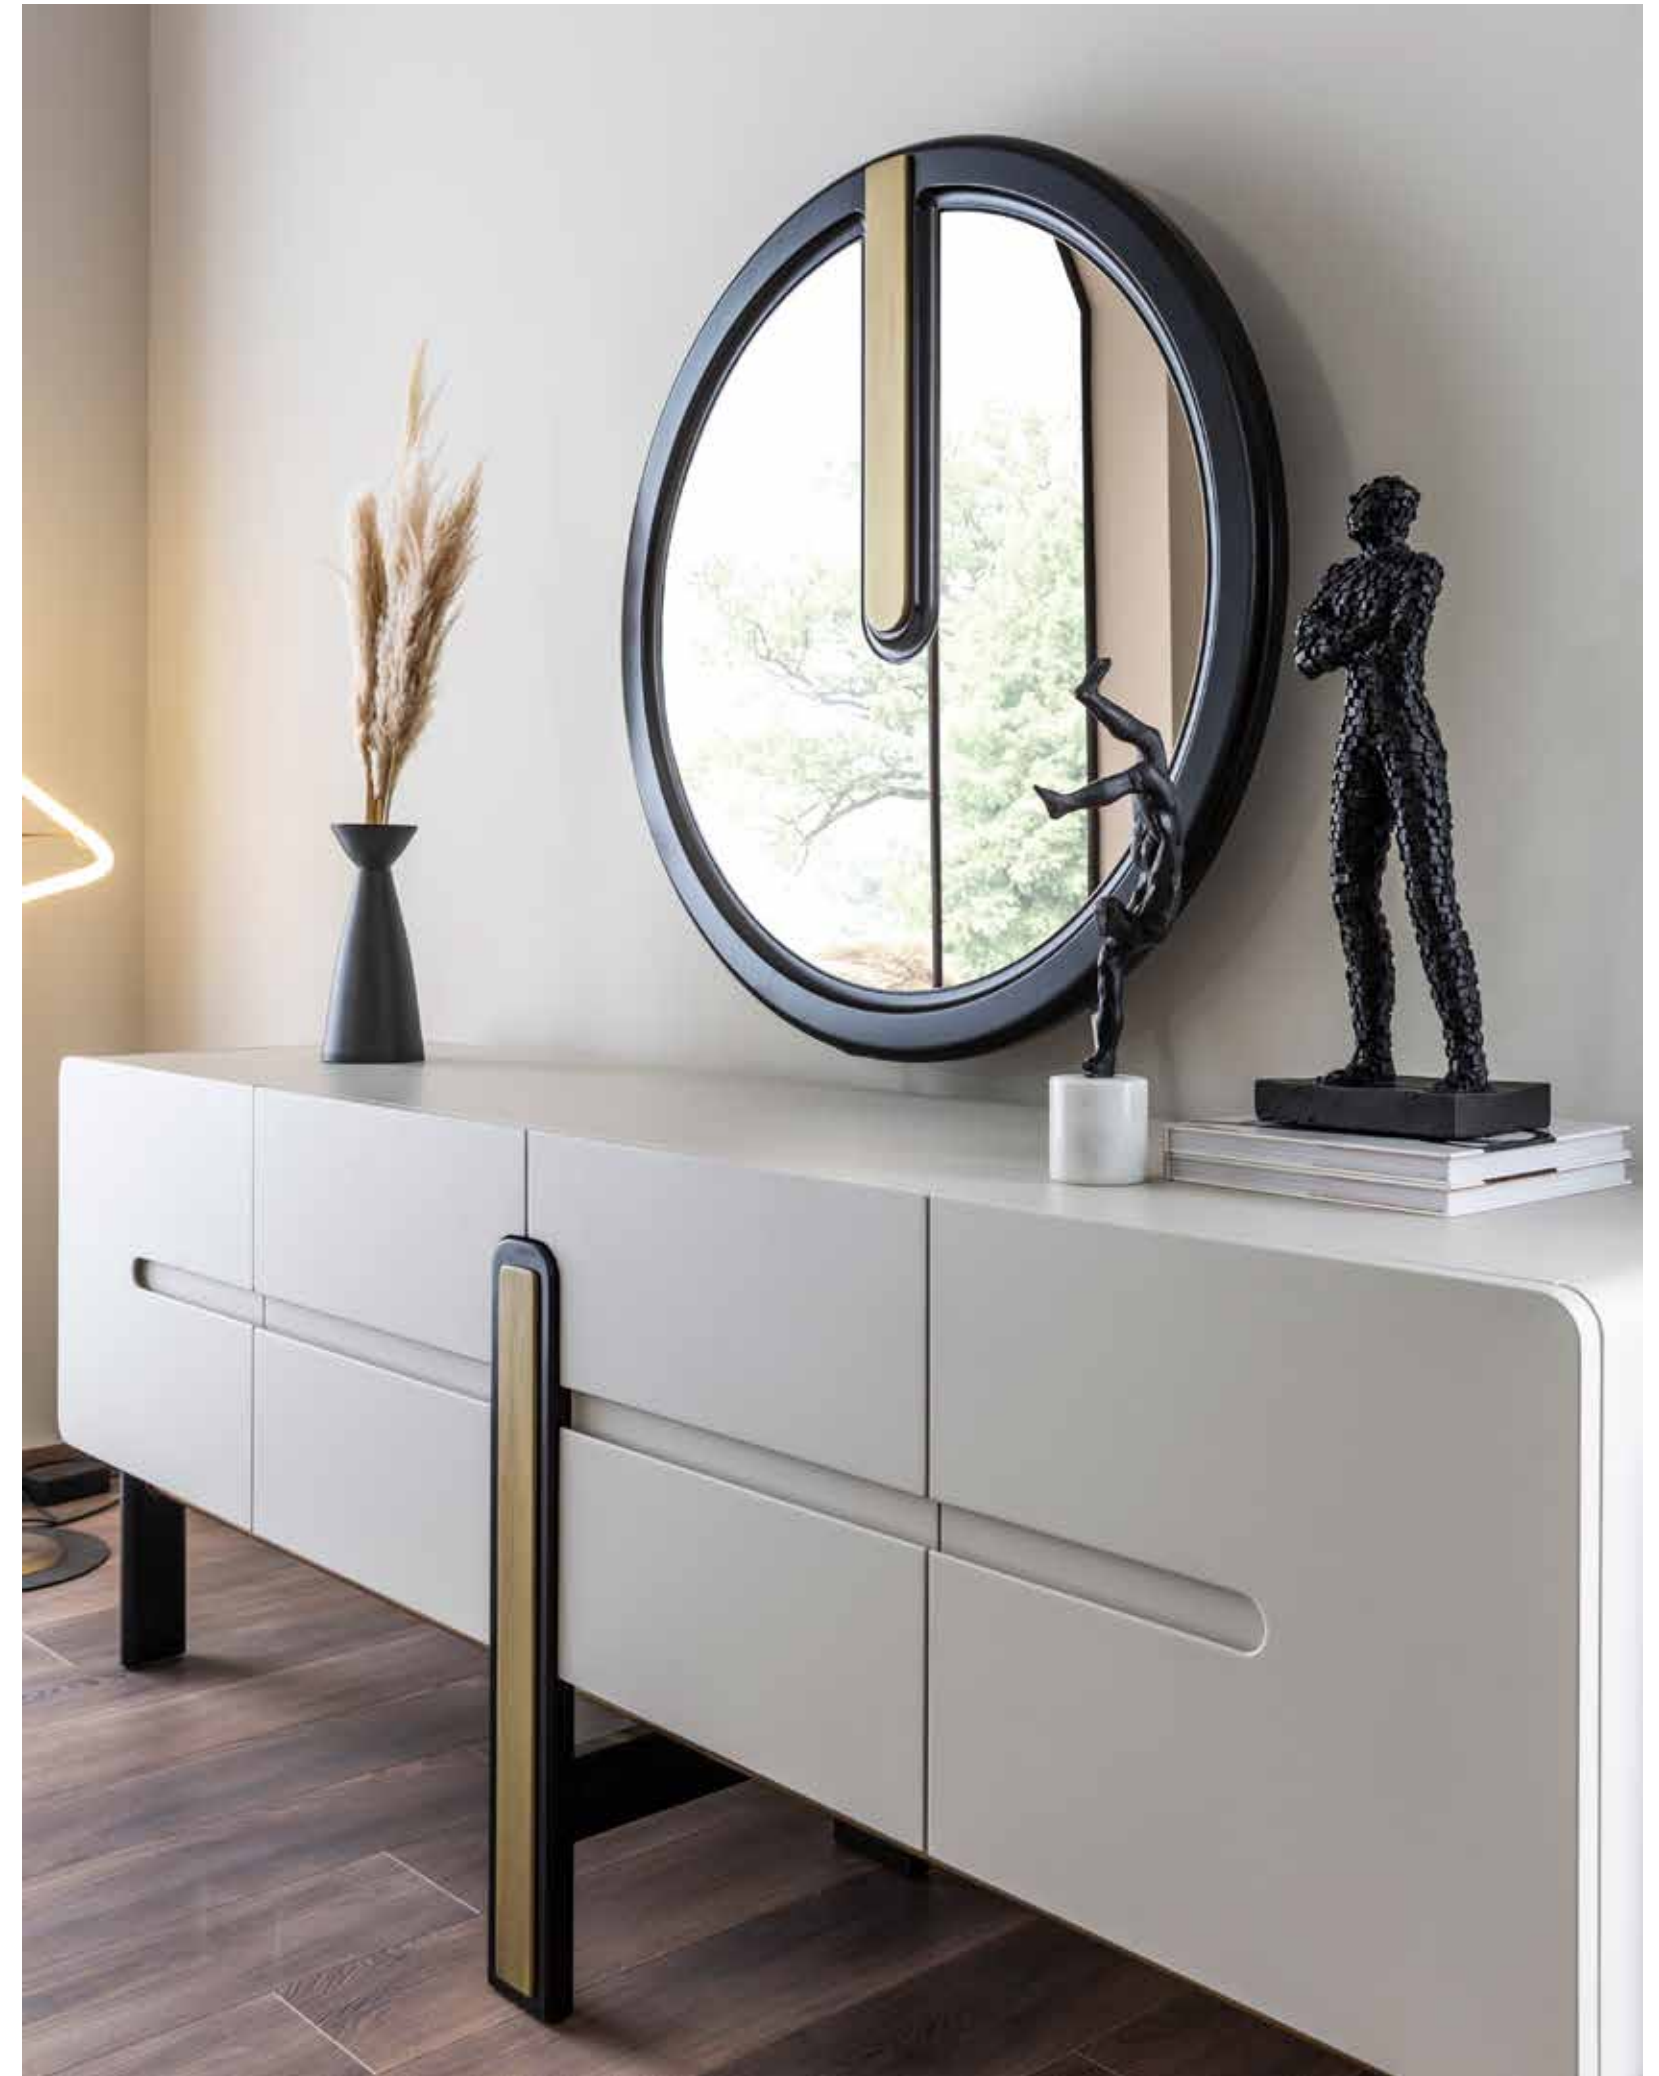

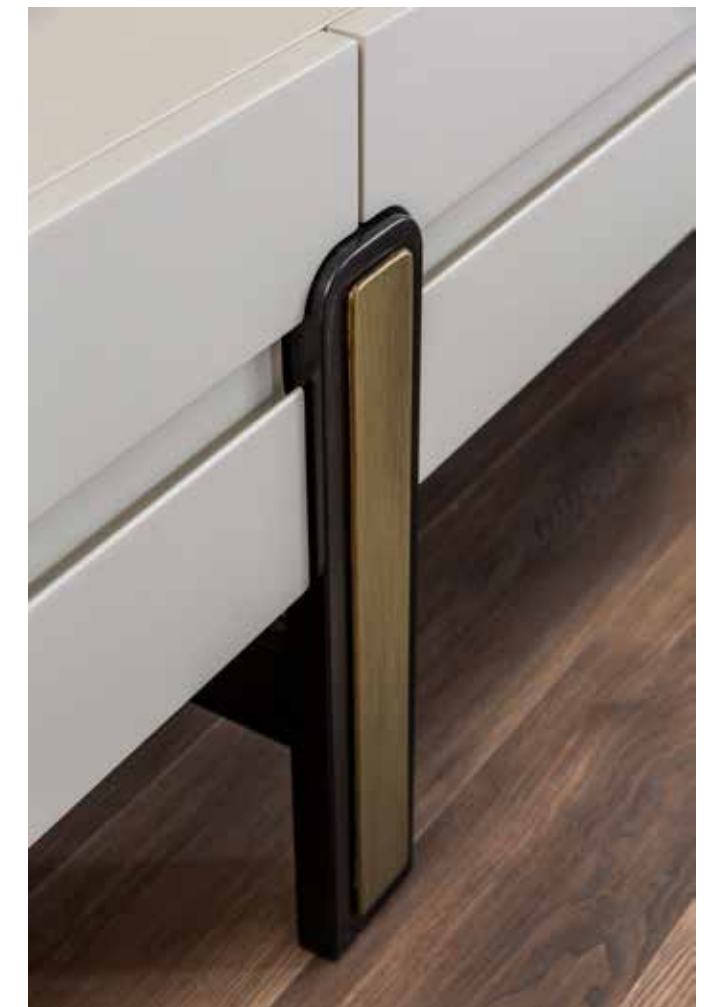

## /Dining room

The unique texture of wood contains stories in each piece of furniture. Wood tones envelop the space in a warm embrace, while natural patterns bring Bergamo to life. Each line, each crack represents a memory. Maybe the joy of a family meeting, maybe the sincerity of friendly conversations are hidden in those traces.
